Notice of Foreclosure of Mortgage. NOTICE IS HEREBY GIVEN THAT PUR-SUANT to a power of sale contained on a certain deed of mortgage dated July 13th 1877, made between Pat (w) and of mortgage dated July 13th 1877, made between Pat (w) and Kaluawas of the one part, and A. J. Cartwright of the other part, and recorded in Liber 50 on pages 412, 413, and 414, in the Registery Office Honolulu; to secure the payment of One Hundred and Twenty dollars in eighteen months from date thereof with interest after the rate of one per cent per month. The said A. J. Cartwright intends to foreclose said mortgage and after the time limited by law to cause the mortgaged property to be sold by public auction in Honolulu for the pay-ment of said mortgage, the same being over due and unpaid and for breach of the condition contained in the said deed.
RICHARD F. BICKERTON

Afterney for said A. J. Cartwright, Mortgagee.
Dated this 22d day of February, 1879. fe22 M. J. ROSE, SHOP ON KING ST., HONOLULU,

HAVING JUST TURNED OUT A FINE Wagonet for HIS MAJESTY, KING KALAKAUA, and no newspaper man or reporter having said one word in regard to it, I shall, therefore, blow my own horn. It is only recently that Carriages has become so common that almost every house IN THE SCRIPTURES, Carriages or Charlots are frequen y alluded to. Upon the flight of the Israelites from Egypt, King Pharaoh pursued them with Six Hundred Chariots, all King Pharaon pursued them with Six Bundred Chariots, all of which were swallowed up by the waters of the Red Sea. And when Israel made up his mind to pay his son Joseph a visit, Joseph telegraphed the old gentleman to come down to Goshen and he would meet him there and drive him down to Egypt in a Jaggon, (wagon.)
Chariots and Carriages were mostly used by Kings and

randees on state occasions. The Greeks and Romans had Charlots; but strange to say, it was as late as the sixteenth century, in 1550, that Carriages were introduced into France, and at that date only three were known in Paris, then quite a large city.

M. J. HOSE is now prepared to furnish almost any

BRIEF MENTION.

SEE SUPPLEMENT for the decisions of the Supreme Court, Letter from New York, and other interesting matters.

IMPROVE YOUR STOCK.—A good opportunity to do this will be offered to-day at Mr. Adams' salesroom. Kentucky jacks are world-renowned. Ox Dir.-That the Haw. Brig Onward will be

fitted out as soon as a crew can be obtained, to go to Kalihi Valley in search of Grass Hopper Oil. A Captain wanted who is acquainted with this business-no other need apply. A NUISANCE ABATED .- We have had occasion from time to time, to note the fact that cattle

wandering on the plains of Kulaokahua were a dangerous nuisance. A notice "by authority' in to-day's paper is evidence that the nuisance will hereafter be abated. SAINT PATRICK'S DAY .- Next Monday, March 17, is the anniversary of the death of the Patron Saint

of Ireland, which occurred in the year a. D. 466; he having, during the period of his life, from his birth in A. D. 372, succeeded in banishing all the snakes from the Emerald Isle.

Omission.-Though rather tardy, yet not too late, our printer begs to acknowledge the receipt of a slice of bridal cake last week, and takes occasion to say with Cowper that-"The kindest and the happiest pair

THE WEATHER deserves a remark, inasmuch as March has come in like a lamb, very much unlike the usual month of that name. The mercury has been up to 81 ° at 2 P. M. during several days this rain. Accounts from the windward islands show the same moderate weather, which is favorable for inter-island communication, and the moving of

Will find occasion to forbear; And something every day they live. To pity, and perhaps forgive."

Music.-The Band will play this afternoon at Emma Square, commencing at 4.80 o'clock. The following is the programme : March-Kameke. Overture—Fra Diavolo.... Cavatina—Lucia..... Fantasia—Don Pasquale.... Selection—Fatinitza.....

CHANGE OF FLAG.-The bark Edward James, hailing from Portland, Oregon, having been purchased by Henry Cornwell, Esq., has been put under the Hawaiian Flag, and re-christened the Liliu, in honor of Her Royal Highness the Heir Apparent. We understand she will be continued the trade between here and California.

CAUTION .- The last Legislature did a very good work in prescribing certain rules for the regulation of express wagons. But there is something yet to be done by police regulation in this regard. We have noticed that green lads are not infrequently entrusted with the management of horses training is questionable. Look out for accidents.

HAWAHAN GUARDS .- At the last regular meeting of Company B. Hawaiian Guards, held at the Armory on Tuesday evening, March 11th, the fol-lowing gentlemen were elected officers for the ensuing term:

CAPTAIN—Chas. B. Wilson, re-elected. FIRST LIEUT.—J. I. Dowsett, jr. SECOND LIEUT.—H. Bertleman. SECRETARY—J. Meck, jr., re-elected. TREASURER—M. R. Colburn, re-elected. WE FIND that the following editorial paragraph in a San Francisco paper of a recent date, which, cur-

zettes editorials of this week : " DURING the year 1878 the imports of the United States were exceeded by the exports to the enormous extent of \$304,542,000. Ten years ago the balance of trade was almost as much the other way. Nothing could more thoroughly illustrate the country's steady and rapid progress toward solid and enduring prosperity.

icusly enough, reads very much like one of the Ga-

THE KANAINA ESTATE .- Yesterday the Supreme Court decided in the matter of the Estate of the late Charles Kanaina, deceased intestate, that the were entitled to distributive ollowing shares; Hon. Mrs. Bishop, 2 distributive shares Her Highness, R. Keelikolani, 1 distributive share; and one each to Hana Lilikalani heirs of Kilinahi; Haalilio and brothers; Kaua, and Pahau. Mr. Davidson, for Pamahoa, and others, noted an appeal to a jury. THE "ROBERT DIXON."-This American clipper

ship is at anchor outside this port, bound for

guano islands. A report comes to us that there

has been trouble on board, between the master

and the crew; that several of the men has been placed in irons; that one, having escaped custody swam ashore (running the guautlet of sharks but got no satisfaction from his Consul. We would be glad to hear that this latter report is unfounded. ALMOST A FIRE, AND QUITE A MISFORTUNE.-Last Wednesday, a fire was discovered in Allen & Robinson's lumber yard, in front of the building formerly occupied by Geo. Williams, as a shipping Office. It is supposed to have been caused by some careless person throwing a lighted cigar down there in passing along. Messre. Allen &

as we are informed. They have doubtless a legal right to do so; but old residents will regretfully remember the old-time walks on the Point." "Toads and frogs were originally intoduced into the Sandwich Islands to exterminate cockroaches." The above paragraph is going the rounds of newspapers in the United States ; but it will most certainly be news to Island readers. Frogs were introduced here about twenty-five years ago, from Cali-fornia, through the exertions of Dr. Hillebrand. The idea was that frogs would destroy insects, such as caterpillars, grasshoppers, etc. A lot of the amphivious creatures were placed in the taro patches of

Nuuanu Valley, and for a short time their croaking

was heard on still nights, bringing up pleasant re-

collections of other lands. But something in the soil or the climate disagreed with the frogs, and they disappeared. Cockroaches however thrive here. THE WAILUKU MURDER .- The real facts in regard to the death by violence of the Chinaman, Akela, which was announced in our last, appear to be involved in considerable obscurity. A coroner's in-quest failed to positively declare who were the guilty parties, though suspicion very strongly pointed to a Chinaman and a native woman. The inquest was continued, with the expectation of further discoveries being made, and the Attorney General and the Marshal went to Mani on Tuesday on this business. The native woman above referred to, is reported to have confessed that she assisted the Chinaman to kill Akela. Strange it is, but true, that in most deeds of violence it is found

that " there's a woman at the bottom of it." DEATH OF MR. IRA RICHARDSON .-- This wellknown resident merchant of Honolulu for the past twenty-eight years, deceased at his residence in this city on Sunday last, aged 62 years and six months. His illness was of but brief duration. as it was only about forty-eight hours after he had been seen on our streets in apparent health that he breathed his last. The shock to the community, which appreciated the valuable qualities of Mr. Richardson as a man and citizen, was sudden and afflicting-much more so to his family and more intimate friends. Mr. R. was a native of Vermont, and first came to these Islands from California, in 1850, where he had been engaged in gold mining. He leaves a widow and several children to mourn the loss of a kind busband and father. He has relatives-two sisters-one in the town of Rochester, Vermont, his native place, and one, Mrs. Chase, in this city. The funeral took place on Monday, and was very largely attended.

WRITING FOR THE PRESS .- We beg to give notice to correspondents that letters written on both sides of their paper cannot receive attention. They go straight to the waste basket. Such communications will scarcely be read. Remember that if you write on both sides your communications have a very small chance of appearing in these columns. Such "copy" can't go into the printer's hands but must be rewritten, and every person about this office has other employments. Strange as it may Mr. Claus Spreckles, of Clifornia. intends appear to those who haven't investigated the subto construct a large Ditch on the Island of Maui, for ject, all persons employed on a newspaper like the irrigating purposes. Any persons persons willing to ADVERTISER actually have something to do. And excavate or dig 500 feet or more only ditch by contract, while we are about it we may say further that we and be paid for such work either the number of cubic can neither preserve nor return manuscript, and writers need not expect it. At the same time it is proper to remark that communications containing and cables, and weighs 400 tons. With it a cage can be feet or by the number of running at of the ditch exes. writers need not expect it. At the same time it is important intelligence, or containing observations on topics of public interest, when well written, going directly to the point and wasting no words, are always welcome. But we want no writing on any subject when the paper is written on both SWEET CHARITY .- But the greatest of all is

Charity," says the Apostle. One thinks of this inspired utterance when viewing the collection of gifts that are sent to Molokai, via Wilder & Co's agency, on the periodical trips of the schooners, about every week. While it is a fact that the unany other machine she ever saw. ins easily, smoothly, fortunates there are well cared for by government, has used the Howe, Wheeler & Wson, Grover & Baker, and Singer, and prefers your mache over them all.

Very Respectfully, 'M. ANDREWS, Jr., no 30 715 Hesst., San Francisco.

The st., San Francisco.

And provided with the necessaries of life, yet there are many things of personal comfort which a general agency cannot be expected to supply. One may easily guess what these consists of. And we are gratified by finding that this view of charity is being carried out as to the Lorent denominations of silver.

A compartment will also be made for valuable documents which a general agency cannot be expected to supply. One may easily guess what these consists of the Lorent denominations of silver.

A compartment will also be made for valuable documents and supply the enclosed with water as a steam safe, and is guaranteed fire proof under the most severe test. It will be fitted with four double locks and a time lock. HAWAIIAN ERNS.

The subject of an increased water supply for the city of Honolula, is one that has of late years forced itself upon the attention of all. This journal has in past years persistently urged on successive Ministries the necessity of providing for the growing wants of the city in this important particular. The purchase by the government of the control of the upper part of Nuuanu valley, whereby the whileme "cow pasture" became a reservoir of pure water, was one of the results of the agitation. We learn that the present Ministry is fully alive to the

fact that it is absolutely necessary to provide for future contingencies by building new reservoirs to supplement the one now in use. Particulars as to location and capacity will be given in due time. Meanwhile the Minister of the Intererior has ordered the publication for general information of the law in regard to the taking possession by him of "whatever land or water may be required for the use of the Honolulu Water Works." The law was originally passed in 1860, but amended in 1874 and again in 1878, whereby its scope was considerably enlarged. The following is the law in

AN ACT-To authorize the Minister of the Interior to take passession of whatever Land and Water may be required for the use of the Honolulu Water Works.

Be it enacted, By the King, the Nobles and Representaof the Hawaiian Islands, in Legislative Council assembled Section 1. The Minister of the Interior is hereby authorized and empowered, in accordance with the provisions of this Act, to enter upon and take possession of, and hold for the use of the Government, such land and water, real estate and property, as may be required for the use and maintenance of the Honolulu Water Works, for laying down pipes and dams, reserreservoirs and tanks, on and through the lands extending from the reservoir on the land of Kahookane, in the district of Hosolalus, along the said land of Kahookane and up the ravine of the Nuu anu Valley stream to the spring called "Kapena," and also extending from the said old reservoir, in a nearly direct line to the spring called "Kunawai."

Sec. 2. The Minister of the Interior shall appoint three connected and distressed varies who shall be aware before

competent and disinterested parties, who shall be sworn before entering upon the duties of their office, and any one of them shall have power to administer out is, to act as commissioners to ascertain and determine upon the compensation to be made to the owner or owners, person or persons intérested; for the taking or injuriously affecting such land and water, real property, as may be required for the said works. SEC. 3. The said Commissioners shall, by printed or writ-

en notice, notify the owners and others interested in the land and water, real property, proposed to be or affected, to meet them, within thirty days thereafter, at some conven-ient place, and lodge their claims for compensation; thereafter the Commissioners shall proceed with dispatch to take what testimony may by them be deemed necessary, and after having viewed the premises, the said Commissioners, or a majority of them, shall determine upon the compensation proper to be made to each of the parties claimant and in-SEC. 4. The said Commissioners, or a majority of them, shall make, subscribe and file with the Minister of the Interior, within such reasonable time after their appointment.

as may be fixed upon by the said Minister, a of their finding and appraisement, in which the water, real estate and property so valued, and to be taken. shall be described by map, diagram, or otherwise, with convenient accuracy and certainty. SEC. 5. Upon the filing of the certificate, as provided to the preceding section, the Minister of the Interior is hereby authorised to pay to the persons named in said certificate, the several amounts determined upon by the said Commissioners, out of the appropriation for the Honolulu Water Works, and to take possession of and occupy all land and water, real estate and property, described in the said certificate, and to hold and use the same for the benefit of the Honolulu Water Works: Provided always, that either party feeling aggrieved by the decision of the Commissioners, may appeal to the Supreme Court of the Hawaiian Islands at the first regular term thereafter, on giving security for costs as pro-vided in civil cases. And further provided, that such appeal shall not prevent the Minister of the Interior from proceeding with the works, or retaining or taking possession of all land

and water property mentioned and valued in the said certifi-cate of the Commissioners. sate of the Commissioners.
SEC. 6. The Minister of the Interior, upon payment being made or tendered to all the parties entitled to payment under the certificate of the Commissioners, shall cause to be entered on the records of his office said certificate, and a certified copy of the same shall be recorded in the office of the Regis-trar of Conveyances, with the like effect as if it was a deed of conveyance, in fee simple from the said owners and parties terested, to the Hawalian Government. The Minister of the Interior shall, on receiving

the certificate of appraisement, pay to the Commissioners such reasonable compensation as he may determine upon, and he shall have power to fill any vacancy in their number Sec. 8. This Act shall take effect from and after the Approved this 18th day of August, A. D. 1860 KAAHUMANU.

AN ACT-To Amend Section 1 of an Act entitled "An Act to authorize the Minister of the Interior to take possession of whatever Land and Water may be required for the use of the Honolulu Water Works, approved the 18th day of August, A. D. 1860. Be it enacted by the King and the Legislative Assembly the Hawaiian Islands in the Legislature of the Kingdom Section 1. That Section 1 of an Act entitled an Act section 1. That Section 1 of an Act entitled an Act to authorize the Minister of the Interior to take possession of whatever land and water may be required for the use of the Honolulu Water Works, approved the 18th day of August, 1860, be, and the same is hereby amended, to read as follows: "Sec. 1. The Minister of the Interior is hereby authorized and empowered, in accordance with the provisions of this Act, to enter upon and take possession of and hold for the use of the Government such land and water, real estate and properly as may be required for the use and maintenance of the Honolulu Water Works, for laying down pipes, building dams, reservoirs and tanks on and through the lands extending from the reservoir on the land of Kahookane, in the district of Honolulu, and thence mauka to the ridge of mountains lying between the district of Honolulu and the district of Kaneohe

ound Nuuanu Valley."

Approved this 18th day of July, A. D. 1874. Robinson, have consequently stopped all thoroughfare through the premises in the future, AN ACT-To Amend Section 1 of an Act entitled "An Act to Authorize the Minister of the Interior to take Possession of Whatever Land and Water may be required for the Use of the Hanolulu Water Works," approved on

for the Use of the Honolulu Water Works," approved on the 18th August, 1860, and amended the 18th July, 1874. Be it enacted by the King and the Legislative Assembly of the Hawaiian Islands, in the Legislature of the Kingdom as-SECTION 1. That Section I of an Act entitled " An Act to section 1. That Section 1 of an act that a act to authorize the Minister of the Interior to take possession of whatever land and water may be required for the use of the Honolulu Water Works," approved the 18th August, 1860, and amended the 18th Juty, 1874, be and the same is hereby amended to read as follows: " Sec. 1. The Minister of the Interior is hereby authorized and empowered, in accordance with the provisions of this Act, to enter upon and take possession of and hold for the use of the to enter upon and take possession of and hold for the use of the Government, such land and water, real estate and property, saving and excepting the water springs of Kunawai, Walluakio, and Kanewai, as may be required for the use, maintenance, increase, and development of the Honolulu Water Works, in the way of laying water pipes, digging water leads, building dams and reservoirs, and reserving forest land, or land for the growth of forest vegetation, on the southren and western slopes of the Konahuanui range of mountains in the district of Honolulu, and lying between and including the eastern side of Public Valley and the western side of Kalihi Valley, with all

Palolo Valley and the western side of Kailhi Valley, with at spurs and gulches of the said slope between the said limits." Approved this 3rd day of August, A. D. 1878

San Francisco Correspondence. During the past few weeks several of our well known business men, whose hames and faces are familiar to the public have been called away by death. On the 3d instant Mr. Jacob Shrew died by his own hand at his place stant Mr. Jacob Shrew died by his own hand at his place of business. He had been a resident of this city for thirty years, and from the nature of his business (photographer) he was brought into contact with a large number of people. He was a single man, very agreeable in manners, fond of company and a member of many associations. He was a bruid, and a Knight of Pythias, an Odd Fellow, and was at the time of his death Vice President of the Society of California Pioneers.

On the 8th instant Mr. William A. Macondray, a member of the well known firm of Macondray & Co. died in on the sta instant are with the condray & Co. died in the prime of life. The firm of Macondray & Co. was one of the oldest in the city, the House having been established soon after the gold discovery by the eider Macondray, who had previously been engaged in the China trade. The old gentleman died many years ago; his sontable of the Erm died in the China trade. in-law, James Otis, also a member of the firm died in 1875. Now William A. follows them, but the firm still

Many of your readers have heard of the clipper ships barid Crockett and Three Brothers. The Crockett has made twenty-four round voyages to and from New York, the shortest of the outward passages being 103 days, and the longest 136 days. The shortest passage this way was made in 94 days and the longest in 115 days. The Crockett has made 316 miles in 24 hours, and the good ship has never cost the underwriters a dollar.

The Three Brothers is the largest sailing vessel in the world, being nearly 3000 tons burthen, and drawing when loaded 25 feet of water. She was formerly the steamship Vanderbill, and was the flagship of Admiral Wilkes when in command of the West Guif Squadron during the rebellion. In 1873 she was bought by the three Howes brothers, rebuilt and sparred as a sailing ship, and named from her owners the Three Brothers.

Her first trip from this port was made to Havre in 110 days. CLIPPER SHIPS BACING

days.
The Three Brothers and David Crockett have run several races to and from this port and New York for the purpose of ascertaining which is the fastest sailer. They have just finished another of these long ocean races. The Three Brothers left this port on October 11th, and the David Crockett sailed eleven days afterward.

The Crockett sailed eleven days afterward.

The Crockett arrived in the lower bay New York, about these bayes sheal of the Three Brothers, thus beating the three hours ahead of the Three Brothers, thus beating the latter about eleven days.

EXPENSIVE MACHINERY
There has just been completed in this city the largest, most expensive and heaviest piece of hoisting machinery ever produced in the world, which is intended to work the North Consolidated Mine, and which has been shipraised, at a speed equaling a mile a minute. It of machinery was built from plans drawn by V ten, superintendent of the North Consolidated raised, at a speed o ten, superintendent of the North Consolidated Virginia Mine, and will cost the benanza firm \$160,000. It will be the largest work of the kind ever put up on the Com-stock, and is next to the most expensive, the Yellow Jacket pumping machinery having cost \$260,000.

Jacket pumping machinery having cost \$260,000.

THE SUB-TREASURY VAULT.

At the various sub-Treasuries in the country the Government has made preparations to store the vast quantities of gold and silver which it now holds. The sub-Treasury in this city is being provided with an iron vault in the basement of its new building on Commercial street, which will hold \$15,000,000 in saiver. It will cost about \$25,000. It is made of heavy wrought iron plates, doubled and riveted, and is \$\frac{1}{2}\$ feet in height, 13\frac{1}{2}\$ feet in width, and is \$37\frac{1}{2}\$ feet in length. The vault will be subdivided into compartments for the different denominations of silver.

ated to agriculture and the mechanic arts." (4) The come of the fund set apart for the "endowment of the versity of California." University of California." (5) Devaltons, hielinding the gift of the present site of the University at Berkeley and a considerable amount of real estate in the city of Oakland by the old college of California, which transferred its assets and students and went out of existence, with to understanding that the organization of the University should never be changed, and that a College of Let should always be maintained.

where the leading object shall be, without exclusion

These I have mentioned are some of the prominent sources of support. Private donations have become a considerable item of late.

The control of the University is committed by the organic act to twenty-two Regents. Sixteen of these are appointed by the Governor, and hold office for 16 years. Six Regents hold their places by virtue of other offices, viz: the Governor, Lieutenant Governor, Speaker, Superintendent of Public Instruction, President of the State Board of Agriculture and the President of the Machanics Institute in this rein.

tural Institute, of which General Sam'l C. Armstrong is principal, there are 250 colored and 67 Indian youths to be educated as leachers of, and examples to their respective races. In New York on the 22d of January, Gen. Armstrong delivered an address before prominent citizens at the Chamber of Commerce, on the satisfactory progress in agriculture and other industries of the Indians now at the Institute. Wm. E. Dodge presided. Armstrong stated that application would be made to Congress for an appropriation to extend the Institute so as to civilize hundreds of other Indians. Dr. Bellows and Rev. Dr. Hitchcock endorsed the views of the speaker, expressing the hope that Congress would speedily respond to the demand for the appropriation.

A paper called the Southern Workman is published by Armstrong, of which J. F. B. Marshall is business manager, and the kind interest of all who want to see the ignorant educated and enlightened is asked for this paper. It is published at an annual loss of about \$500, and contributions of from one to ten dollars towards its support would be most acceptable. Specimen copies of the paper will be sent to any address by sending to Mr. Marshall, Box 10 Hampton, Va.

Missionaries from Hawaii.

Something over half a century ago citizens of the United States went out to Hawaii to help develope the native into a civilized and Christian man. Some of these missionaries decendents are now returning the compliment, and are teaching the ignorant black and red children of which Uncle Sam has such an abundance in the South and West. At the Hampton Normal and Agricultural Institute, of which General Sam'l C. Armstrong is principal, there are 250 colored and 67 Indian youths to be educated as teachers of, and examples to their res-

Captain Marcy of the Ship Wm. H. Morcy, has made several voyages to this port, and on each occasion he has saved the lives of one or more persons from drowning. On one occasion he saved two persons from drowning off Front street wharf. On another occasion he saved two lives off Union street wharf. Still later, two persons were saved by him from drowning off Mission street wharf, and one off Vallejo street wharf. About three weeks ago he saved two boys from drowning off Goat Island. This makes a total of nine lives saved by this heroic Captain in this poet.

It was then sent to the Senate, and for the past three or four days that body of Statesmen have been wrestling with this important question.

On Saturday evening Feb. 15th the question was settled by the passage of the bill by a majority of 12. It now goes to the President for his signature, after which the law will go into effect on the 1st of July 1879. Between the time of the passage of the bill by the House, and its consideration by the Senate, leading newspapers and eminent Divines took occasion to express their sentiments regarding this plan of shutting out the Chinese. The New York Herold, Tribune, World, Times, Post and Ecening Express, all condemn the bill, They style it a "bill to make political capital in California for the next election."

After striving for so many years for Federal legislation of check the immigration of Chinese, California will ejoice and be exceeding glad should the bill receive the

cease in a measure, the cry may go up from the large of cheap laborers.

That part of this Mongolian picture which horrines the people of California the most is its back-ground. They see a thousand million people more or less trying to get across the water—people who can live on what a poor white man wastes, and get fat and save money on that. So the Burlingame Treaty is cut in two. Some of the nations of the earth must keep to themselves after this. A strong pressure will be brought to bear on the President to yeto the bill.
